

**CERTIFICATE OF DIAGNOSIS
FOR PARA-EQUESTRIAN CLASSIFICATION**

The person named below is required to undergo Para-Equestrian Classification to compete at International level of their chosen sport. During the classification process the approved Classifier (physiotherapist or medical doctor) will assess their physical Impairment as relevant to the requirements for riding a horse. To assist the classification assessment process a confirmation of the medical diagnosis and a summary of results of relevant medical investigations to support the diagnosis is required. In some instances, a copy of a report from a medical specialist e.g. neurologist, will be required.

Athlete's Details

To be completed by the Athlete applying for classification – Please print

MEDICAL DETAILS

This section to be completed by a Doctor of Medicine only– please print clearly

Please attach a separate sheet or report if insufficient space

For FEI Classification this information must be provided in English or an authorised translation provided.

Name of Applicant	
List presenting health conditions	
Test results to support the above diagnosis e.g. MRI, CT, Muscle biopsy, nerve conduction	

List resulting permanent impairments (for example- hypertonia, muscle power, range of movement, limb deficiency).

Other relevant information

I hereby certify that I have followed this patient for _____ years and that the above named patient has the diagnosis specified above.

Please print

Doctor's Name:	
Address:	
Signature:	
Date:	

N.B. Information disclosed on this form will be stored confidentially by the FEI in accordance with the FEI Classification Manual.

Information for the medical practitioner completing this form:

Requirements

Relevant and appropriate medical documentation is essential to the process of Classification of Athletes for International Para-Equestrian Competition. Each Athlete must have an Eligible Impairment that leads to permanent and verifiable activity limitation which can be measured objectively.

This medical information should provide the results of medical tests and investigations which demonstrate that the Athlete has a diagnosis of a medical condition which leads to their presenting physical impairments.

Examples of documentation required:

Example 1 - a person with Multiple Sclerosis will have had various tests, for example MRI scans, during the investigation to find the cause of the symptoms. The results of the tests and a report from the neurologist clearly stating the full diagnosis is required.

Example 2 - a person with peripheral nerve damage and/or muscle weakness or paralysis is required to provide results of nerve conduction tests and other relevant investigations including a summary report from a neurologist or a neurophysiologist.

For FEI Classification this information must be written in English.
